de Desenvolvimento Regional

Project Title | B2–SOLUTIONS – Biobased and Biodegradable Composites

Project Code | POCI-01-0247-FEDER-048505

Main Goal | Strengthen research, technological development and innovation

Intervention Region | Center

Beneficiary Entities | United Resins – Produção de Resinas S.A., United Biopolymers, Plastaze, Navigator Brands, CELBI – Celulose Beira Interior, Universidade de Aveiro, Universidade de Coimbra, Instituto de Investigação da Floresta e Papel

Approval Date | 17-12-2020

Start Date | 31-12-2020

End Date | 30-06-2023

Total eligible investment | 2.271.048,67 €

European Union Financial Support | FEDER - 1.447.468,86€

Brief Project Description

This project's ambition is to design and develop bioplastic and biocomposite biodegradable and/or compostable formulations to use in the flexible plastics segment for paper coating and semi-rigid plastics for the automotive and non-automotive industries.
